

Biography

DEFENSE COMMISSARY AGENCY
1300 E Avenue, Fort Lee, Virginia 23801-1800

Delbert L. Myrick Director of Operations and Policy

Delbert Myrick is director of operations and policy for the Defense Commissary Agency's Sales, Marketing and Policy Group, headquartered at Fort Lee, Va., a position he has held since December 2011. He serves as the group's subject matter expert on commissary operations, coordinating various initiatives including new technology, resources, commissary and industry business practices and operating strategies as well as developing and disseminating agency policy on all operational aspects of commissary management.

Mr. Myrick began his commissary career in 1980 with the Air Force Commissary Service as a temporary store worker at March Air Force Base, Calif. Four years later, he became the store's produce manager. He became a management intern in 1985, working first at Barksdale Air Force Base, La., and next at Lowry Air Force Base, Colo.

A year after DeCA was formed, Myrick served in his first commissary officer position at Bad Kreuznach, Germany, from 1992 to 1993. He followed that tour from 1993 to 1994 with an assignment as deputy commissary officer at Hanau, Germany. Eventually his career took him to Andrews Air Force Base, Md., as a commissary officer from 1995 to 1997, before being selected manager of Zone 24, a position in which he oversaw the operations of seven stores in Virginia and Maryland.

After four years as a zone manager and another three years as store director at Fort Myer, Va., Mr. Myrick was selected deputy director of the sales directorate in 2004. He remained in that position until 2006 when he was chosen to be program manager for the agency's Internet sales systems and distribution divisions.

In 2007, he was assigned to then DeCA East as its director of operations, where he was responsible for supporting the region's 99 stores. Three years later, he was selected chief of enterprise business solutions for the information technology directorate. There, he led a staff that analyzed complex business processes and recommended supporting technology and business changes to the agency's business transformation steering group.

EDUCATION

Masters of Business Administration, California Coast University
Bachelor of Science – Business Management, California Coast University
