Vendor Portal Enhancements

Enhanced capabilities for scan-based promotional agreements.

Bill Back Manager

Simplifies the promotional process by providing a quick, efficient method for generating invoices for various types of promotional activities.

Expect these great features...

- Vendors are able to electronically create, negotiate, and finalize scan-based promotional agreements with DeCA for Managers' Specials, Hot Deals, Seasonal Markdowns, and Local Store Promotions.

- Vendors can access and view current and prior month's promotional invoices.

- Vendors will maintain their own email address in Vendor Portal in order to receive promotional invoices from DeCA.

- BBM will automatically create and transmit invoices to vendors based on results of scan-based promotional agreements.

- Both a summary invoice and detail by store that includes both units and dollars, will be sent to vendors.

Stay tuned for more information.

Vendor Web-Based Training (WBT) will be available prior to go live.
